**TO STATIONERS.**—A well-established STATIONERY BUSINESS to be DISPOSED OF, in a large market town west of London. An eligible opportunity for a young man of small capital, wishing to commence business. Address to G. R. post-office, Reading, Berks.

**TO BOOKSELLERS and PUBLISHERS.**—To be LET, an established BOOKSELLER'S SHOP, in the best part of the Strand, the proprietor giving up the retail trade. Also nine rooms to be let, in a quiet part of the Strand: rent 50l. For particulars apply to Mr. Pierce, printer, 310, Strand.

**PATENT PICTURE RAIL MOULDING,** for HANGING PAINTINGS and PRINTS; and IMITATION GOLD FRAMES.

*Artis est celare artem*—This desideratum is most satisfactorily obtained by the above inventions. The rail moulding combines ornament and utility, as it forms an elegant bottom member of the cornice, superseding the expense of a gilt moulding, which it resembles, and has strength to suspend the largest pictures. The frames require only to be seen to be appreciated, being sharp in effect, of equal durability and appearance to gold, and at considerably less cost.

Artists and Collectors are invited to inspect Specimens at Mr. Nottingham's, 14, Fish-street Hill.

**ON the HISTORY and ART of WARMING and VENTILATING ROOMS and BUILDINGS** by Open Fires, Hypocausts, German, Dutch, Russian, and Swedish Stoves, Steam, Hot Water, Heated Air, Heat of Animals, and other Methods; with Notices of the progress of Personal and Fireside Comfort, and of the Management of Fuel.

By WALTER BERNAN, Civil Engineer.  
"Since Stuart's 'Anecdotes of the Steam Engine' there has been no such bit of delicious mechanical gossip as this little book of Mr. Bernan; and it is most welcome at a season when the vagaries of our froward climate have reduced us almost to despair of every thing but fireside comfort—and even that is scarce enough. For six months or more every year, we must depend much more on the resources of science and the practical arts for our health and comfort, than on the natural climate—in short, we must create our own climate. To help us to the means of doing this appears to be one of the objects of these little volumes, in which, as we have shewn, are collected a multitude of expedients of all times and nations, collected with research, selected with judgment, and skilfully arranged and described. The interest with which one reads is sustained and continuous, and you devour a two-volume inventory of stoves, grates, and ovens, with the voracity of a parish school-boy, and then—ask for more."—*The Athenæum*.

## CALIGRAPHIC BLACK LEAD PENCIL,

MANUFACTURED BY E. WOLFF AND SON,

No. 23, CHURCH-STREET, SPITALFIELDS, LONDON.

The Caligraphic Pencils have been invented by E. Wolff and Son, after the expenditure of much time and labour. They are the result of many experiments, and every effort that ingenuity and experience could suggest has been made to insure the highest degree of excellence, and the profession may rely upon their being all that can be desired.

They are perfectly free from grit; and for richness of tone, depth of colour, delicacy of tint, and evenness of texture, they are not to be equalled by the best Cumberland lead that can be obtained at the present time, and are infinitely superior to every other description of Pencil now in use.

The Caligraphic Pencils will also recommend themselves to all who use the Black Lead Pencil as an instrument of professional importance or recreation, by their being little more than half the price of other Pencils:—

H, HH, HHH, HB, B, BB, F, FF, W*	4s. per dozen.
BBB, EHB	8s. "
BBBB	12s. "

\* This Pencil is particularly recommended for writing and counting-house use.

An allowance on every gross purchased by artists or teachers. May be had of all artists' colourmen, stationers, booksellers, &c.

A single Pencil will be forwarded as a sample, upon the receipt of postage stamps to the amount.

CAUTION.—To prevent imposition, a highly-finished and embossed protection wrapper, difficult of imitation, is put round each dozen of Pencils. Each Pencil will be stamped on both sides, "Caligraphic Black Lead, E. Wolff & Son, London."

\*.\* The usual trade allowance to stationers, booksellers, &c.

A show-box or specimen gratis with an order for a gross of Pencils.

## DIMES AND ELAM'S PREPARED CANVAS WITH INDIA RUBBER GROUND.

This article having now stood the test of time, and of daily increasing reputation, is worthy the consideration of those who wish to preserve their works. The ground used in preparing this canvas renders it perfectly secure from CRACKING, PEELING, and the effects of damp or heat.

Those artists who are about to enter into competition for the Prizes offered by her Majesty's Commissioners, the Art-Union, or other bodies for the promotion of the Fine Arts, will find much advantage in this canvas, as the picture when finished may be taken off the stretcher and rolled without the slightest fear of injury in carriage.

Prepared of any dimensions, texture, or colour, by DIMES AND ELAM, 91, Great Russell-street, Bloomsbury, where may be had every Material used in the Fine Arts.

## PYNE'S MACGUELP.

DIMES AND ELAM

Beg to call the attention of Artists and Amateurs to the New MACGUELP, so strongly recommended by Mr. PYNE in the ART-UNION for July.

It presents the firmest and ultimately hardest vehicle, and is susceptible of any state between that of extreme diluteness and viscosity. It favours that state of the opaque colours which allows of their being infinitely broken and interlaced, without becoming mixed, and conveys to the transparent pigments perfect steadiness.

Prepared and sold by DIMES AND ELAM, Artists' Colour Makers, 91, Great Russell-street, Bloomsbury, London.

\*.\* An extensive assortment of Crayons, White and Tinted Drawing Papers, and every Material that is used for Drawing, Painting, and the Fine Arts.

## IMITATION OR-MOLU FRAMES,

A SAVING OF FIVE HUNDRED PER CENT.

E. F. WATSON

BEGS to return his most sincere thanks for the kind and liberal patronage he has met with for several successive years: encouraged by the past, he is induced to look forward with sanguine expectations to the future, and is desirous of directing the attention of all who patronise the Fine Arts to his NEWLY INTRODUCED IMITATION OR-MOLU FRAMES: so perfect and elegant is the construction, in carved and gilt work, that few (if any) can discover the difference. The Frames are enclosed in a highly-polished Rosewood Case; and being faced with Plate Glass, and backed with Velvet, retain their original lustre for many years.

E. F. W. flatters himself that his long experience and knowledge as an Artist will secure a Selection of the most tasteful and original Designs, which he can offer to the Public for ONE-FIFTH the price of Or-Molu Frames. It is a well-known fact, that the effect of many valuable works of Art is completely destroyed by inappropriate Frames; it therefore must be a desideratum to intrust them to a Frame Maker who is himself an Artist, though not practising Painting professionally.

His newly-invented Oak and Gold Frames are also in great repute, being admirably adapted to Engravings, &c. and taking the entire precedence of Maple or other Fancy Woods.

The Alterations which his Premises have lately undergone not only afford increased accommodation to all who may favour him with a visit, but, together with other arrangements, enable him to pledge himself to the execution of all Orders under his own personal inspection, and with the greatest punctuality and despatch.

E. F. W.'s attention continues to be directed to the complete Restoration of Pictures by the Old Masters; and he trusts the approbation and high testimonials he has hitherto obtained will be a sufficient guarantee to his future success in this important department of his business.

His Picture Gallery has just received a fresh importation by the following Masters:—Rembrandt, J. Van Hughtenburgh, Wm. Van de Velde, Peter Van Laar, Correggio, Boucher, Schulken, Honsius, Gaspar de Witte, Valesques, and many others.

Residing in all its various branches; but E. F. W. has a peculiar method of Cleaning Defaced Gilding, so as in many instances to render the expense of regilding unnecessary.

### GLEANINGS, ORIGINAL AND SELECT.

**FEARFUL ODDS.**—Corvisart, a French physician of some celebrity during the latter portion of the last century, was once lamenting, in company, the premature death of Dr. Backer. "It was not, at all events, for want of medical aid that he died," said he; "for, in the last days of his illness, we, Hallé, Portal, and myself, did not quit him for an instant." "Alas!" interrupted the Abbé Siéyès, "what could he do against three of you?"

**RETOUR.**—A noble lord asked a clergyman once, at the bottom of his table, "Why the goose, if there were one, was always placed next to the parson?" "Really," said he, "I can give no reason for it, but your question is so odd, that I shall never see a goose again without thinking of your lordship."

Attention to dress is perhaps the last remnant of vanity that clings to a woman. Misery and misfortune make men slovens. Though she be on her trial for life, a woman will take care that her figure and face shall be set off to the best advantage.

**AFFECTATION.**—Affectation in any part of our carriage is lighting up a candle to our defects, and never fails to make us be taken notice of, either as wanting sense or as wanting sincerity.—Locke.

At the end of Hume's History of Elizabeth, Sir John Malcolm wrote as follows:—"The head cannot join the heart respecting Mary; nor can the heart follow the head about Elizabeth."

**BELIEF CANNOT BE FORCED.**—Human violence may make men counterfeit, but cannot make them believe, and is therefore fit for nothing but to breed form without and atheism within.—Chillingworth.

### NEW ENVELOPE.

IN consequence of the great variety of counterfeit Envelopes of ROWLAND'S KALYDOR, and other disreputable means resorted to by unprincipled individuals for imposing on the public their highly pernicious compounds, under the title of "KALYDOR," the Proprietors and sole Preparers of the Original and Genuine Preparation, acting under a sense of duty, and regardless of expense in the attainment of their object—THE PROTECTION OF THE PUBLIC FROM FRAUD AND IMPOSITION, have employed those celebrated artists, Messrs. Perkins, Bacon, and Co. who have succeeded, at great cost, in producing from a steel plate a NEW ENVELOPE of exquisite beauty.

It comprises a highly-finished engraving of the GRECIAN GRACES standing on a classic pedestal, on each side of which is a rich profusion of flowers springing from an elegant cornucopia; these tastefully blending with Arabesque scrolls and wreaths, encircle the Royal Arms of Great Britain, surmounting the words
